NetSuite vendor load

Vendor import: MINIO_Vendor_Template_10192026.xlsx

Overview

Template	MINIO_Vendor_Template_10192026.xlsx from SOA: 61 columns, tabs Field Restrictions, Vendor Template, Vendor Category
Required	Company Name (marked red). First and Last Name are required instead when the vendor is an individual
Source of truth	Sage Intacct vendor detail export, 1,770 active vendors
Enrichment	Ramp vendor export, 578 vendors. 551 carry the Sage vendor ID, so the link is exact
Not loaded	Bank details (ACH and wire). The template has no bank fields
Status	Mapping drafted. Waiting on scope and the open questions below

Column mapping

Same approach as the customer load: Sage first, Ramp fills gaps, rules marked as rules.

Template column	Field	Source
ExternalID	externalId	Same as Vendor ID
Vendor ID	vendorId	Sage vendor ID. V-##### kept; older V##### (339) and Ramp-created RMP_# (37) get the next numbers after V-01768 [TBC: same rule as customers]
Individual	isPerson	Sage “This vendor is an individual person” (34 are)
First Name, Middle Name, Last Name	firstName, middleName, lastName	Sage contact name, individuals only
Company Name	companyName	Sage vendor name. Required
Vendor Category	category	Sage vendor type, mapped to the template list: AR reseller to AR Reseller, Tax to Tax agency, MinIO employee to MinIO Employee. 922 vendors have no type
Primary Subsidiary	subsidiary	MinIO, Inc. [TBC: vendors with INR (9) or SGD (1) currency may belong to MinIO Pvt. Ltd. or MinIO Singapore Pte. Ltd.]

Template column	Field	Source
Phone, Fax	phone, fax	Sage, else Ramp contact phone
Email	email	Sage email, else Ramp contact email. Field holds 300 characters
Comments	comments	Sage comments
Email Preference, Send Transaction Via Email / Fax / Print	emailpreference, emailTransactions, faxTransactions, printTransactions	Blank, NetSuite defaults
Address 1 (Label, Attention, Addressee, Phone, Address 1 and 2, City, State, Zip, Country, Default Shipping, Default Billing)	address1_*	Sage pay-to address, else primary contact address, else Ramp check mailing address. Label “Remit-to”, Default Billing TRUE
Address 2 (same fields)	address2_*	Sage return-to address where different from address 1. Label “Return-to”, Default Shipping TRUE
Legal Name	legalName	Ramp vendor legal name (149), else Sage 1099 name
Account	accountNumber	Sage “Number”: the account number the vendor assigned to MinIO (26 vendors)
Terms	terms	Sage term, else Ramp net terms, mapped to the NetSuite list (Due on Receipt, Net 10, Net 15, Net 30, Net 45, Net 60, Net 150). 132 vendors have terms in Sage
Default Expense Account	defaultExpenseAccount	Sage default expense account, mapped through the Sage# column of COA Draft v1 (for example Sage 62000 to 62600 Consultants). Set on 109 vendors; 2 Sage accounts have no mapping
Default Payables Account	defaultPayablesAccount	20100 Accounts Payable - Trade [TBC]
Credit Limit, Incoterm	creditLimit, incoterm	Blank. Sage has none
Tax ID	taxIdNum	Sage tax ID (232), else Ramp TIN (140). Sensitive [TBC: load in this file or enter separately]
1099 Eligible	is1099Eligible	TRUE when Sage has a Form 1099 type (21) or the vendor type is 1099 Vendor (88)
Vendor Bill tolerances (6 columns)	purchaseorder*, receipt*	Blank. MinIO does not use purchase orders or item receipts
Primary Currency	currency	Sage default currency, else USD
Additional Currency 1, 2	additionalCurrency1, 2	Blank
Legacy Vendor ID	Legacy Vendor ID	Sage vendor ID as it is in Sage
Source System	Source System	Sage Intacct, or “Sage Intacct; Ramp” where Ramp filled a value

Added columns

Not in the template, kept for review and for the record, as on the customer load: Question Categories, Duplicate Action, Ramp Vendor ID, Ramp Category, Owner, Department, Last activity (latest of Sage last bill, Sage last payment, Ramp last spend), Ramp 365-day spend, Flags.

Scope

Sage has 1,770 active vendors, but most have no recorded activity. Activity is the latest of Sage last bill, Sage last payment and Ramp last spend.

Activity	In Ramp	Not in Ramp	Total
Since 2024-10-26	478	85	563
Before 2024-10-26	8	292	300
None recorded	65	842	907
Total	551	1,219	1,770

Sage vendor type	Vendors	Never billed in Sage
Blank	922	565
Credit Cards	427	418
MinIO employee	136	62
AR reseller	127	125
1099 Vendor	88	17
Tax	28	15
Other types	42	18

The export of all active vendors lists 1,775. The 5 not in the detail export are flagged One-time use in Sage. The Sage vendor list report has 1,788: the 1,775 plus 13 inactive.

27 Ramp vendors have no Sage vendor, for example KPMG LLP, Baker Botts LLP, Oracle America and Navan.

Open questions

1. **Scope.** Load all 1,770 active vendors as with customers, or only vendors with activity since 2024-10-26 (563) plus any with an open balance?
2. **Ramp as the vendor master.** If Ramp syncs vendors to NetSuite, vendors paid through Ramp may be created by the sync. Does the load cover all vendors, or only those outside Ramp?
3. **Credit card merchants.** 427 vendors of type Credit Cards, 418 never billed. Load or leave out?
4. **MinIO employees.** 136 vendors of type MinIO employee, used for reimbursements. NetSuite usually reimburses through employee records. Load as vendors or leave out?

5. **AR resellers.** 127 resellers set up as vendors, 125 never billed. Load only those MinIO pays?
6. **Ramp-only vendors.** 27 Ramp vendors have no Sage vendor. Add them to the load?
7. **Tax IDs.** Sage and Ramp hold tax IDs and Ramp holds W-9 classification. Put Tax ID in the load file, or have it entered separately to keep it out of circulated files?
8. **Subsidiary.** Vendors with INR or SGD currency: MinIO Pvt. Ltd. or MinIO Singapore Pte. Ltd.?
9. **Vendor ID numbering and duplicates.** Apply the customer rules: keep V-#####, renumber V##### and RMP_#, merge duplicates into the most recently used record, NetSuite auto-numbers new vendors from the next number.
10. **Default Payables Account.** 20100 Accounts Payable - Trade for every vendor?
