## Values by group

Every item in a group gets the same values.

| Column | Support | Training | License |
|---|---|---|---|
| **Department** | [TBC] | [TBC] | [TBC] |
| **Class** | Support | Training | License |
| **Income account** | [TBC] | [TBC] | [TBC] |
| **Deferred Revenue account** | [TBC] | [TBC] | [TBC] |
| **Revenue Recogition Rule** | [TBC] | [TBC] | [TBC] |
| **Rev Rec Forecast Rule** | [TBC] | [TBC] | [TBC] |

Department, Class, accounts and rules must match existing NetSuite records, spelled as NetSuite shows them.

## Values for all items

| | |
|---|---|
| **Subsidiary** | MinIO, Inc. [TBC: confirm it is the parent of MinIO Pvt. Ltd. and MinIO Singapore Pte. Ltd.] |
| **Include Children** | Yes, so all three subsidiaries can sell the items |
| **Sales Description** | [TBC: repeat the Display Name/Code, or other text] |
| **Base Price** | [TBC: list price per item, or blank and priced on each order] |
| **Create Revenue Plans On** | [TBC] |
| **Direct Revenue Posting** | [TBC: usually No when revenue recognition runs in NetSuite] |
| **Can be fulfilled/received** | [TBC: usually No for services and licenses] |

## Open questions

1. **OEM license.** Does AIStor OEM License use the same accounts and rule as the direct licenses?
2. **Platform training subscription.** Is it recognized like the live trainings or like a subscription?
3. **Base Price.** Do these items have list prices?
4. **Classes in production.** License, Support, Training and Professional Services must exist in production before this load.
5. **Professional Services.** It is a class, but no item uses it. Are professional services items missing from this load?
6. **Template header.** The template spells `Revenue Recogition Rule`. Kept as is; it only needs to match when mapping the import.
